

FOR IMMEDIATE RELEASE:

OregonChurch.net Redefines How Oregonians Discover Faith Communities

Portland, Oregon — October 15, 2025 — OregonChurch.net has launched a first-of-its-kind online directory that transforms how churches are found and understood. Unlike outdated lists of raw data, this new platform presents each congregation through an engaging, visually clear, and informative profile—showing worship style, community life, and service opportunities at a glance.

Created to help both newcomers exploring faith and longtime believers seeking a deeper church connection, OregonChurch.net features congregations that share a common devotion to Jesus Christ and a desire to serve God together. It welcomes the full range of Christian traditions that emphasize biblical teaching and unity in the essentials of the faith, without exclusivity or sectarianism.

The directory also highlights churches offering services in Spanish, Russian, Chinese, and other foreign languages, including Latin in some Catholic churches, making it easier for Oregon's diverse communities to connect.

"OregonChurch.net represents a completely new approach," said the site's founder. "It's exponentially more useful than traditional directories—helping people not just locate a church, but find where they truly belong."

The platform is also completely ad-free, ensuring users experience a clean, trustworthy resource untainted by commercial listings. Visit www.OregonChurch.net to experience this innovative new way to explore Oregon's Christian community.
